

Government Law College Ernakulam · Higher education

150 years of legacy, finally online.

A new institutional website and academic ERP for Kerala's oldest law college, established in 1874. Admissions, timetables, exams, results and records moved from paper registers to role-based dashboards for students, faculty and administrators.

The challenge

THE CLIENT

Government Law College Ernakulam, affiliated with Mahatma Gandhi University, offers LL.B., LL.M. and Ph.D. programmes and has trained generations of Kerala's judges, advocates and public servants.

SECTOR

Government higher education

FOUNDED

1874

USERS

Students, faculty, admin

Records lived on paper

Attendance, internal marks and student files were kept in registers that took days to search.

Notices never reached everyone

Timetables, exam notifications and results were pinned on boards and forwarded in chat groups.

The website was out of date

Visitors could not find admissions, fee structures or faculty information, so the office phone rang all day.

Government process rules

Every workflow had to respect RTI, audit and university regulations while staying simple for non-technical staff.

A digital campus for students, faculty and administration

Institutional website

Admissions, programmes, faculty, committees, clubs and RTI information, easy for staff to update through a CMS.

Student records

Admissions, attendance, internal marks and documents digitised and searchable in seconds.

Exams and timetables

Class and exam timetables, hall allocation and result notifications published once and seen by everyone.

Role-based dashboards

Separate views for students, faculty and administrators, each showing only what that role needs.

HOW IT WORKS

How the digital campus works

From admission to results, on one system.

01

Admission

Applications and documents captured digitally and verified by the office.

02

Academic year

Attendance, timetables and internal marks recorded by faculty online.

03

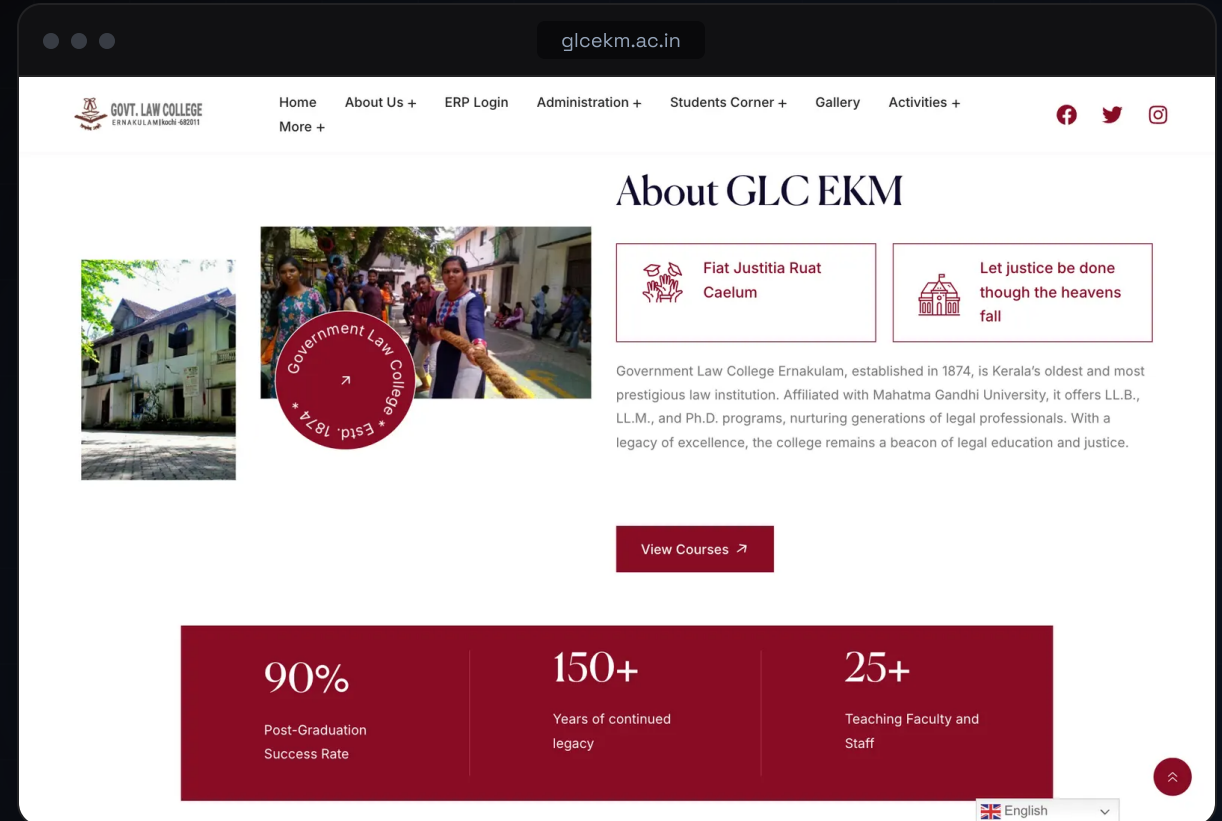

Examinations

Schedules, hall tickets and notifications published through the ERP.

04

Results and records

Results released to student dashboards and archived permanently.

ROLE-BASED ACCESS

RESPONSIVE DESIGN

What changed after launch

OFFICE INQUIRIES

-60%

fewer walk-in and phone queries to the administration

RECORD LOOKUP

Seconds

to find any student file, down from days

PAPER REGISTERS

-90%

of academic registers moved to the ERP

LEGACY

1874

the year the college was founded, now fully digital

Figures reflect administrative estimates in the first academic year after rollout.

BEFORE

Registers, notice boards and chat forwards ran the college, and finding a single record could take days.

AFTER

Students, faculty and staff each have a dashboard, notices reach everyone instantly and records are a search away.

IN THEIR WORDS

“The SajalTech team delivered exactly what we needed: a modern website and ERP system that transformed how our institution operates. Information is accessible, processes are automated, and our staff can focus on education, not paperwork.”
